★★★★★ Top-Rated on Google

SUMMARY

Why SoKalTek? What makes SoKalTek great and unique and why is it the best choice for me?

The answer is simple and just a single word, NukleusOS™, our highly advanced proprietary OS(Operating System), which is similar to the top 2 operating systems in the world, namely Microsoft Windows and Apple macOS/iOS, except that NukleusOS is built primarily for cloud-based(online-based) technologies, e.g. Websites, Apps, Software/Hardware, Marketing, Ads, SEO/SEM/SMM, Graphics/Branding/Design.

NukleusOS allows us to achieve massive efficiencies of cost, quality, and capabilities. Unlike traditional/standard website development companies who use extremely limited-capabilities templates and website builders like Wix, Squarespace, Godaddy, Webflow, Wordpress, WooCommerce, Shopify, Magento, etc, SoKalTek uses NukleusOS in order to have infinite control over cost, quality, and capabilities. This allows us to seamlessly build you from simple websites like a restaurant website to complex websites like Facebook, and anything in between.

NukleusOS allows us to achieve a WORLDWIDE GUARANTEE of Lowest Prices, Highest Quality, and Best Choice. Whether you want to hire someone in America or India or Zimbabwe or anywhere in the world, NukleusOS will be able to beat their cost, quality, and capabilities by massive margins. Web developers can NEVER compete with web engineers, scientists, mathematicians, inventors, innovators, etc, since the difference is hundreds to thousands times more, thus resulting in massive benefits and efficiencies of cost, quality, and capabilities.

NukleusOS(World's most powerful cloud OS) vs Website Builders

Website Builders: Wix, Squarespace, Godaddy, Webflow, Wordpress, WooCommerce, Shopify, Magento, etc.
SUMMARY: Cost • Quality • Capabilities • Infinite Other Possibilities

NukleusOS massively beats Website Builders on Cost

Website builders are extremely expensive to manage, maintain, customize, fix bugs, host, etc. Due to the always ongoing changes in technologies, the templates from website builders are extremely prone to errors, bugs, crashes, etc, which costs a lot to fix. Plugins, themes, templates, etc are extremely unreliable, since they are third-party and now there is another layer of maintenance, dependency, complexity, etc. Any of these plugins, themes, templates, etc can break at any time, thus costing you a lot to fix.

Most of the times a client wants a custom feature, functionality, etc, which in website builders is not available in the form of a plugin, theme, template, etc, thus it requires custom development, and doing any type of custom development in website builders is either extremely expensive or not possible.

With NukleusOS everything is custom-built, thus it is very affordable to build any new custom features. There is no limitation of any features, since with custom development, we can develop any type of custom features. We don't sell you any worthless templates of website builders, instead we build everything custom for you with full dedication and craft.

NukleusOS massively beats Website Builders on Quality

Website builders suffer massively from poor quality, since everything is done for the sake of instant temporary great design to attract people, however it totally lacks the functionality. It's very difficult to impossible to customize a website builder template to one's own custom branding and functionality needs. With website builders you get a generic template used by many, and it's hard to impossible to customize the whole structure, layout, etc of these templates.

NukleusOS allows you to build FULLY CUSTOM websites with FULL control over the quality, structure, layout, design, development, integration, etc.

NukleusOS massively beats Website Builders on Capabilities

Website builders have very basic features, and even these basic features are not customizable. Since your business can need ANY type of customization in the future, thus you will reach a dead end with website builders, forcing you to start all over again.

Advanced functionalities, features, etc are totally missing from website builders, and sooner or later, businesses DO need these advanced features.

Doing any type of innovative, creative, proprietary, etc work is almost impossible in website builders. This is why website builders only target the basic websites market, and even these basic websites they offer don't even have the basic capabilities.

NukleusOS gives you permanent, long-term, and stable solutions for any type of website, whether a simple restaurant or complex like Facebook or anything in between, so you don't have to start it all over again when you reach any dead end with website builders. This saves you a lot of time, money, and headache.

NukleusOS massively beats Website Builders on Infinite Other Possibilities

There are countless other things which NukleusOS can do and Website Builders can't do, however for the sake of keeping this document short, we will be happy to explain these other things outside this document.

Pricing for a standard website

$100 per month includes the following:

✓ A $1500 value highly professional new website design and development for first-time clients.

✓ Unlimited 24/7 customer service, technical support, and expert consultation.
✓ Unlimited NukleusOS updates, similar to OS updates of Windows, macOS/iOS, Android, etc.

You can save a lot of money with our 3-month price of $200(~~**$300**~~. Savings of $100 / 33%.), 6-month price of $300(~~**$600**~~. Savings of $300 / 50%.), or 12-month price of $400(~~**$1200**~~. Savings of $800 / 67%.). We will be happy to discuss these options on a call to save you maximum money.

At SoKalTek we treat our clients like our family, friends, and business partners.

If you switch over to SoKalTek, you will save a lot of money, time, and headache.

We also have a WORLDWIDE GUARANTEE of Lowest Prices, Highest Quality, and Best Choice, so will be happy to match or exceed any local or worldwide competition's prices, offerings, and proposals.

We will be happy to discuss this further with you. Feel free to call us any time.

Pricing for a complex website

If you need a complex website with many features, e.g. like Facebook, then contact us to give you a custom cost for your website. The above pricing for a standard website still should be helpful in giving you an idea about our lowest prices.

Can't afford some/any cost? We also do equity partnerships.

We totally understand if you can't afford some or any cost of your project(s), which is why we also offer equity partnerships. Our goal is to make you successful so that we also become successful, and work together long-term as partners.

Refer and get a 50% commission(Highest in the industry!).

We have the strongest referral program in the world. Due to our extremely low prices and highly efficient work, we can easily give out a 50% commission for our referrals, which is the highest percentage rate in the industry.

FREQUENTLY ASKED QUESTIONS

Why SoKalTek is the best choice for me?

SoKalTek gives you a WORLDWIDE GUARANTEE of Lowest Prices, Highest Quality, and Best Choice. This is all possible due to the bleeding-edge several technologies we have invented and developed from the ground up for over 22 years, especially our proprietary OS named NukleusOS.

Do I save money if I have multiple websites/apps?

Yes the more websites/apps you have, the more money you save due to our highly advanced state-of-the-art routing, merged-matrix, and several other technologies.

If I have more than one website/app, does the website/app hosting cost more?

No, the hosting cost is a single fixed price regardless of how many websites/apps you want to host. This is the unique capability of SoKalTek which no other competitor is currently offering, not even the template companies can offer this, due to extreme technical difficulties in achieving such technologies. With SoKalTek all this multi-website/multi-app fixed-price hosting is possible due to our highly advanced technologies developed from the ground up for over 22 years. All other companies charge hosting per single website/app which costs a lot for many websites/apps.

Does SoKalTek offer ALL the technology services? Is SoKalTek a Full-Service one-stop shop for ALL of my technology needs?

Yes SoKalTek is a Full-Service one-stop shop providing ALL tech services for ALL of your tech needs. Whether you need a website, app, software/hardware, marketing, ads, SEO/SEM/SMM, graphics/branding/design, or any other technology services, SoKalTek fully provides these services, so you do not need to look for any other business for any of your technology needs.

Why I should switch over to SoKalTek from my current technology provider, developer, designer, marketer, etc?

SoKalTek offers too many benefits as compared to any competition anywhere in the world. SoKalTek gives you a WORLDWIDE GUARANTEE of Lowest Prices, Highest Quality, and Best Choice. This is extremely difficult to impossible to compete with. SoKalTek has invested heavily in lots of inventions, innovations, creations, and other technologies from the ground up for over 22 years, so that it can compete internationally with a WORLDWIDE GUARANTEE. All other points mentioned in this document also highlight the unique strengths of SoKalTek.

Reviews

★★★★★ **Top-Rated on Google**

Websites Design and Development

SoKalTek will continue being our choice for all our websites needs. Our service has always been consistent and to our satisfaction. More specifically, SoKalTek adroitness is one of a kind. SoKalTek has made it exciting to work with by always being on the up-and-up with the new features and tips available in the world of website development. By understanding our business, SoKalTek has known how to translate those features into benefits and turning our ideas into reality.

★★★★★ Kevin Thompson

It was a pleasure working with SoKalTek for our website design. SoKalTek delivered on all of our expectations, creating a well-designed site, optimized for our business's needs. We couldn't be happier.

★★★★★ Jessica Martin

SoKalTek is an accomplished professional. SoKalTek not only created our website but took the time to provide additional information designed to promote it. SoKalTek professional knowledge in the area of web design and graphics is impeccable along with personal friendship which is worth mentioning!

★★★★★ Robert Harris

A quick note to tell you how much we appreciate all the help SoKalTek has given me. There are times when we feel absolutely lost with all this technology, small things but things that can bring work to a halt which obviously isn't good. We also appreciate SoKalTek patience which is so necessary when someone is trying to grasp something new! Not only have we found it difficult to find anyone who will make themselves available to help but we have also found it difficult to find anyone with the knowledge to actually help. In SoKalTek, we have found it 'all-one-stop shopping' and very much appreciated! Our increased productivity thanks you!

★★★★★ Melissa Clark

We highly recommend SoKalTek, they are true professionals. SoKalTek are progressive thinkers and will always give the client more than they need. SoKalTek is reliable, trustworthy and dependable, SoKalTek will always go beyond expectations to help the client.

★★★★★ Cesar Walker

Mobile/Tablet Apps Design and Development

SoKalTek did an outstanding job for me. I knew absolutely nothing about technology. SoKalTek slow-walked me through the entire process. The finished app far exceeded my expectations. I recommend them to others without any reservation.

★★★★★ Emily Wright

I highly recommend SoKalTek. SoKalTek is very knowledgeable and professional about building mobile apps, ensuring great workmanship and results.

★★★★★ Joshua Scott

My company feels very fortunate to have found SoKalTek. SoKalTek and their team are true professionals - taking the time to explain work being performed. We are so happy with the app design and development work that just got completed. Looking forward to the next phase of building our Social Media platforms!

★★★★★ Donna Hill

Reliable!! Efficient!! Fast!! I contacted SoKalTek to help me with some app work, which I thought was difficult. They completed everything very well. I really value reliable responsive businesses - there's nothing more frustrating than having to call company after company to get a job done. I'd highly recommend working with them!!

★★★★★ Mason Campbell

I was referred to SoKalTek after I had spent a lot of money with another company who made promises they did not keep. SoKalTek has created a very professional app for my company of which I am proud of for my customers to visit.

★★★★★ Kenneth Nelson

Marketing, Ads, Social Media, SEO/SEM/SMM

I hired SoKalTek to manage our social media marketing on LinkedIn and Youtube. I had always wanted to expand our marketing but could never find the time to learn how and would never have time to manage it. SoKalTek was so thorough from the beginning, they drew up a detailed marketing plan and their pricing was very reasonable, especially for the results we got. Within 2 weeks we saw a nice increase in our website visitors and sales. I will be a customer for as long as I am in business. Thanks SoKalTek!

★★★★★ Larry Kelly

SoKalTek exceeded my expectations. They communicated well and went beyond with the project I needed completed. I'm very pleased with their work and will continue using their services in the future.

★★★★★ Cheryl Stewart

I reached out to SoKalTek to help give my company the boost it needed to reach a new customer base, and increase sales. SoKalTek was very helpful walking me through the whole process from start to finish. The ad campaigns they put together for my company brought us a fresh new market of buyers and increased my sales tremendously. This was my first time working with a marketing company and it was a great experience and I cannot wait to see what SoKalTek can do for my company in the future! Thank you SoKalTek!

★★★★★ Benjamin Collins

I have to say that I have had a wonderful experience with SoKalTek. SoKalTek has walked me through the whole process of bringing my website current and has done a fantastic job of dealing with someone who is completely lost when it comes to websites and marketing. The website portion of this project is over and now I am looking forward to the marketing part, if you are looking for a stand-up honest guy, do yourself a favor and let SoKalTek get you up and running.

★★★★★ Amber Edwards

SoKalTek stands out because they deliver substance and expertise in a marketplace that is crowded with fluff, hype and pseudo-experts. I know my business but I knew I needed an expert to work with me to create an excellent online presence that drives customer engagement. Having performed mildly effective "random acts of marketing" in the past with "help" from buzzword-y pseudo experts, I was honestly a little hesitant to try again. SoKalTek was referred to me and from our first conversation I realized I was working with an expert who was going to use their skills to work with me and help our business, and not use their expertise to baffle me with unnecessary things and sell me something I did not need.

★★★★★ Dennis Morgan
